

LENO 40 - thread made from 100% high quality flax fiber sourced from France. **LENO 40** provides good friction resistance and low extensibility. Linen thread characterized by anti-allergy properties and high moisture absorption. The thread degrades naturally and thus is an environmentally friendly solution.

LENO 40 thread fulfills the requirements of the safe product, included in the legislation in force.

LENO 40 is recommended for:

- sewing by hand (linen products, filcu itp.);
- sewing on buttons;
- buttonhole sewing;
- bobbin lace;
- model building.

Technical data:		Average linear mass of the threads	Minimum average tensile strength	Make - up
Article	Tex x ply	tex	cN	m
LENO 40	38 x 2	78	1700	70, 500

Cross-wounded on cones.

Flax fiber is one of the oldest natural fiber and becoming more and more popular. Linen products are using by both well-known companies, fashion designers and other consumers who care for the environment and organic products. In order to meet customers expectations we have prepared thread **LENO 40**.
