

**COTTO 80** is typical sewing thread made of 100% long staple cotton. Process of mercerisation provides high quality sewing and durability of the seam.

Ecological and natural products are all the rage now! Eco fashion has arrived to the clothing industry too. Cotton thread is most commonly used for sewing goods made of natural fibres such as cotton, flax or silk. In order to meet clients expectations we have prepared **COTTO 80** thread.

**COTTO 80 threads  
fulfill the requirements of the safe product  
included in the legislation in force.**

**COTTO 80** is recommended for:

- lingerie,
- bed linen,
- corsetry,
- cotton and linen clothing,
- thin cotton fabrics.
