

ARTYN[®] FLEX

100% PTT

ARTYN FLEX - is a specialized thread made from polytrimethylene terephthalate. This thread is highly elastic, used for all stretch materials. It can be washed and bleached like standard sewing threads. It's recommended to sew on low tension and relatively low speed due to the elasticity of this thread.

ARTYN FLEX thread fulfills the requirements of the safe product included in the legislation in force.

ARTYN FLEX has very good sewing ability on every machine and is recommended for sewing of :

ARTYN FLEX 120 underwear, women's and men's clothes, sportswear and swimsuits

<i>Technical data:</i>						
Article	Dtex x ply	Average linear mass of the threads	Minimum average tensile strength	Minimum elongation	Make - up	Recommended needle size
