

ERA - these are multipurpose polyester sewing threads made by using modern revolutionary production technology, giving them the best properties of core spun threads and spun threads. Designed to meet the highest quality requirements. The optimum choice of physical and mechanical parameters guarantees high tensile strength and very good sewing ability. Suitable for every type of stitch, seam and all types of machines.

ERA is especially recommended for corset articles, underwear, women's and men's wear, shirts, blouses, jeans clothes, special workwear, upholstery and leather fancy goods.

**All the parameters of ERA
are up to the European standard EN 12590:1999**

ERA is recommended for sewing of:
