SIRI®

100% polyester

SIRI - it is bottom line thread for machine embroidery produced from 100% spun polyester. Thread SIRI guarantees high durability of connection with top line thread.

All parameters of SIRI fulfill European standard EN 12590:1999 and the requirements of the safe product included in the legislation in force.

SIRI recommended as bottom line thread to connect with top line thread in a computer embroidery.

Thread Siri is recommended for all types of industrial and semi-industrial embroidery machines.
SIRI thread, according to the Certificate Oeko-Tex Standard 100, can be used for clothes embroidery as well as accessories embroidery for infants and children up to the age of 3.

Technical data:		Average linear mass of the threads	Minimum average tensile strength		Make - up	Recommended needle size
Article	Dtex x ply		required by the Standard PN-EN 12590	guaranteed by „ARIADNA"		
	dtex	dtex	cN	cN	m	No.
SIRI 180	100 x 2	210	500	550	50 000	70 - 80

Available colours: white and black.

Make up: crosswound on cones.
